## Day of vaccination

- Bring a form of ID.
- If your vaccine requires a second dose, ask when it will be scheduled.
- Prepare to wait 15-30 minutes after your shot to make sure you don't have a reaction to the vaccine.
- After your shot make sure to get your vaccination card.

## After getting vaccinated

- If you experience mild side effects, it's a normal reaction to the vaccine. Doctors recommend taking over-the-counter pain relievers like acetaminophen or ibuprofen if you have any discomfort. 
- Typically it takes two weeks for your body to build immunity against COVID-19 after your last dose.
- Continue to wear a mask, wash your hands and practice physical distancing. 
- Take a photo of your vaccination card and keep in a safe place.

Let's get you there.
